nerest, and redeemable in New-York on the lat of July,

attached, payable in New-York on the lat of each January and Joly.

These Bonds are lasted under the provisions of the acts of the Legislatures of Chio and Pennsylvania, and are secured by a mortgage executed to John J. Paimer, Esq. of the City of New-York, in trust for the Bondholders.

This mortgage covers the entire line of the Road from Pittaburgh to Massilion, in the State of Ohlo, a distance of 107 mine, the cost of which is estimated at \$2,025,000, and the Trustee is empowered, in case of sixty days' default in the payment of interest or principal of the Bonds, to take possession of, the and sell the whole or any part of the same; and it provides further, that Bonds to the amount of one million of dollars in all may be issued, of which amount ave hundred thousand dollars have already been disposed of, principally in England, in the purchase of rails, spikes, chairs, locomotives, &c. leaving only the bonds now offered the issued under the mortgage.

The proceeds of the entire issue are exclusively applied to the superstructure and equipment of the line from Pittsburgh to Massilion; the means for the construction of the road ready for the iron, have been amply provided by reliable stock subscriptions; among which the twin cities of Pittsburgh and Allegheny have each subscribed and paid in \$200,000.

The Ohio and Pennsylvania Ralirosed forms part of the great direct line of Raliroad between the cities of New-York, Philadelphia and St. Louis, which, when finished, will be aborter than any of the roates between New-York and St. Louis.

will be shorter than any or one to the and Pittaburgh will be. The line between philadelphia and Pittaburgh will be ready for travel in 18/2, by which time the whole of the Ohio and Pennsylvania road to its junction with the Gleveniand, Columbus and Cincinnati road, is intended to be finished.

and. Columbus and Cincinnail road, is intended to be finished.

The portion of the road between Pittaburga and Massilion, is now under contract and progressing rapidly and will be opened for traffic in July next.

The immense and rapidly increasingly commerce of Pittaburgh, joined to the traffic to be derived from several of the wheat counties of Oho through which this road passes, will insure to it a large and productive beainess that can never be diverted by any other route; this without taking into consideration the long travel, joined to the low cost of construction (estimated at only \$16.36 per mile,) will insure to the stockholders highly remunerative dividends, and there is little doubt that the right of converting these Bonds into stock, at par, will be availed of by the Bond holders and add greatly to fite value of the Bonds, as it will enable the Bond holders to share in the profits of the road when its results shall become matter of act, without incurring any risk while the road is being constructed. Out incurring any risk while the road is being constructed out incurring any risk while the road is being constructed for sale afford one of the safeat and most desirable securities in the United States.

Five Hundred Throusand Dollars are now

It is connidently delice that and most desirable securities asie afford one of the safest and most desirable securities in the United States.
